

Total files: 3

Classification:

- PDB files for ssRNA in different salt concentrations.

Description:

ssRNA PDB files with (i) negligible (N), (ii) low (L) and (iii) high (H) salt concentrations.

The input file “g5cg4_[N].pdb” is identical to the input file “g5cg4_ssRNA.pdb” that has been used to generate the ssRNA results in Figure 1.

Usage:

File name	Associated figures
g5cg4_[N].pdb	Figure 6(a, gray) Figure 6(c, top) Figure 6(d, gray)
g5cg4_[L].pdb	Figure 6(a, orange) Figure 6(b, top) Figure 6(c, middle) Figure 6(d, orange) Figure 6(e, top)
g5cg4_[H].pdb	Figure 6(a, yellow) Figure 6(b, bottom) Figure 6(c, bottom) Figure 6(d, yellow) Figure 6(e, bottom)
